

Workshop

“Conflicts and Good Scientific Practice”

Scope

Based on the DFG memorandum "Safeguarding Good Scientific Practice" participants will receive an overview of the rules of good scientific practice and how to deal with scientific misconduct.

Case studies will be used to illustrate conflictual situations in everyday research and options for dealing with them will be practiced.

The course offers the opportunity to reflect on values and attitudes as scientists and to ask and discuss questions such as:

- How to deal with the pressure to publish?
- How to deal with conflicts (unequal treatment, conflicts of interest, conflicts for resources, mobbing,...) with my colleagues and / or supervisors?
- Regarding good scientific practice, what are the responsibilities of my supervisors?
- How should I take action, when I encounter / suspect scientific misconduct?

Methods

- Theory input
- Analysis of case studies
- Single and group tasks

Schedule

30 January 2023, 8 h

The workshop will be held [online](#).

Registration

Please register [online](#) until 16.01.2023 .

The number of participants is restricted to 16.

GS-EES members will gain 0.5 CP within “Good Scientific Practice”.
